

Indiana Jones® and the Fate of Atlantis™

IBM® REFERENCE CARD

Contents

Your *Indiana Jones and the Fate of Atlantis* package should contain the following:

- ✦ Your game disks
- ✦ One User's Manual

NOTE: To provide the most enjoyable playing experience possible, we designed this game to take full advantage of the current state of the art: 256-color graphics, many popular sound cards, and a mouse. The game can, however, be played with the minimal configuration of internal speaker and keyboard.

Getting Started

FIRST, MAKE BACKUP COPIES of all disks and put the originals in a safe place. The disks are not copy-protected, so to copy them, just follow the instructions that came with your computer.

Indiana Jones and the Fate of Atlantis will need at least 9.4 megabytes of hard drive storage (plus approximately 50K per saved game). The game requires 540K of available RAM in order to run smoothly.

(For clarity, the instructions given below assume that you are using the A drive. If you are using drive B, substitute **b** for **a**; and **B** for **A**.) The hard drive installation utility will also work from drive B.)

We have provided an installation utility that will copy the program to your hard disk from the floppies included in the package. To run it, start your computer, then insert Disk 1 in drive A, type **a**; and press **ENTER**.

When you see the **A>** prompt, type the word **install** and press **ENTER**. Answer the prompts and follow the on-screen instructions. This will install the game in a directory called **atlantis** on your hard disk.

To play the game from your hard disk use these commands:

Switch to the correct drive (for example, type **c**; and press **ENTER**).

Type **cd \atlantis** and press **ENTER** (to change to the correct directory).

Type **atlantis** and press **ENTER** (to start the game).

Setting Preferences

WHEN LOADED, THE PROGRAM will check to see if you have a mouse driver or joystick installed, or one of the supported sound boards, and will set up the game appropriately. If you wish to override these default settings, you may do so by adding the following letters (separated by spaces) after typing **atlantis** when you start the game:

a AdLib Music Synthesizer sounds

s SoundBlaster sounds

r Roland sounds
