

HOW TO PLAY SARGE

Command Your Forces in the Ultimate Tank and Copter Battle!

Match your wits and skill against an unseen enemy in a classic combat challenge that teams the excitement of a tank battle with the thrill of a chopper chase! You're the Sarge in charge — and your promotion is riding on how much of a commander you prove to be in the field.

Move your tank into position and blast your foes before they blast you! Or send your copter into action in an aerial dogfight over rugged terrain. Two commanders can even play at the same time, working together to score a victory. Any way you play it, you'll have to think fast, stay sharp and watch your back to get out of this one alive!

Object of SARGE™

Destroy your enemy's tanks and helicopters to gain promotions in rank.

2-Player Game

Two players may play SARGE at the same time, working cooperatively to defeat the enemy.

Tank and Chopper Controls

To play SARGE, you may use either your Keyboard or a Joystick. Controlling your tanks and helicopters is very

easy. All you have to do is check out the diagram for reference and you'll be blowing your enemy to bits in no time.

Joystick Version

Use your Joystick to move your tank or chopper up, down, left, right or diagonally. To fire, press the Fire Button. To switch between Tank Play and Chopper Play, press both buttons at the same time.
