

PACIFIC COAST HIGHWAY

For the Atari 400/800 (16K)

By Ron Rosen

PACIFIC COAST HIGHWAY is a one or two player game. Look both ways and run like crazy. It's always dangerous crossing the Coast Highway. But if you're lucky, surf's up!

TO START

Diskette

Make sure that the power is off to your computer. Turn on the power to your T.V. and disk drive #1. Wait for the red "drive busy" light to turn off. Insert the diskette and close the disk drive door. Now turn on the computer. The program will load and run automatically.

Cassette

Insert the cassette into your tape player and press play. Hold down the START key and turn on your computer. When you hear the "buzzer," press RETURN. The tape will load and run automatically.

Connect a joystick to controller jack #1. A second joystick may be attached to jack #2. Press the START key or joystick button to begin.

Object

The object of **PACIFIC COAST HIGHWAY** is to move a rabbit across a highway jammed with cars. When you reach the beach you must jump from surfboard to towel and stay off the burning sand. Rolling sidewalks add to the game's difficulty. A tortoise joins the race in the two player version. You must clear two screens to complete a difficulty level. Each contestant gets three tries.

Scoring

Jump Forward (new lane)	100
Jump Backwards	-10
Complete a Screen	??? Bonus Points

Game Control

Move the joystick handle left, right, forward and back to move your player. Move your player on top of the character at the top of the screen to complete a level.

Special Features

Press the OPTION key to choose a one or two player game. Press the ESC key to pause and any other key to continue. Press SYSTEM RESET to return to demo and reset high score.

LIMITED WARRANTY

This software product and the attached instructional materials are sold "AS IS," without warranty as to their performance. The entire risk as to the quality and performance of the computer software program is assumed by the user. The user, and not the manufacturer, distributor or retailer assumes the entire cost of all necessary service or repair to the computer software program.

However, to the original purchaser only, DATASOFT warrants that the medium on which the program is recorded will be free from defects in materials and faulty workmanship under normal use and service for a period of ninety (90) days from the date of purchase. If during this period a defect in the medium should occur, the medium may be returned to DATASOFT or to an authorized DATASOFT dealer, and DATASOFT will replace or repair the medium at DATASOFT'S option without charge to you. Your sole and exclusive remedy in the event of a defect is expressly limited to replacement or repair of the medium as provided above. To provide proof that you are the original purchaser, please complete and mail the enclosed Owner Warranty Card to DATASOFT.

If failure of the medium, in the judgment of DATASOFT, resulted from accident, abuse or misapplication of the medium, then DATASOFT shall have no responsibility to replace or repair the medium under the terms of this warranty.

The above warranties for goods are in lieu of all other express warranties and no implied warranties or merchantability and fitness for a particular purpose or any other warranty obligation on the part of DATASOFT shall last longer than ninety (90) days. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall DATASOFT or anyone else who has been involved in the creation and production of this computer software program be liable for indirect, special, or consequential damages, such as, but not limited to, loss of anticipated profits or benefits resulting from the use of this program, or arising out of any breach of this warranty. Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

The user of this product shall be entitled to use the product for his/her own use, but shall not be entitled to sell or transfer reproductions of the product or instructional materials to other parties in any way.

SOFTWARE OPPORTUNITY

Datasoft is offering a unique opportunity to software authors. Send us your program or program concept for evaluation. If it is accepted for publication we will enter into a marketing agreement to sell your product through our Domestic and International distribution channels.

And the opportunity does not end there. We offer you something few other publishers can. We call it "Product Roll-Over". We have the capability to take a program and transfer it to other popular microcomputers (Atari, Apple, TRS-80 and NEC). We can even plan distribution on machines still in development that we feel will be a large part of tomorrow's market.

Datasoft works with several large microcomputer manufacturers on new and exciting projects. We are involved with many "famous-name" companies entering our industry for the first time.

So get the most exposure for your programming efforts. Write us for a free programmer's package and get a start on a rewarding future. It's waiting for you today.

Send your name, address and phone number to:

There's only one opinion that really matters in the future of computers and how we use them . . . *Yours!*

Making computers accessible to everyone was once only a vague hope of the future. Now it has become a reality which is even now dramatically changing our world, making it a better and more enjoyable environment for everyone. That's why DATASOFT needs your help in choosing the products of tomorrow.

Helping to shape the future can be as simple as filling out the few short questions which you'll be sending in with your warranty card. (Just drop it in the mail . . . we'll pay the postage.) Your ideas will help us in selecting the products that will become the most useful to you.

In return for your help, we'll be able to keep you up to date on what we're doing now, and what we're planning for the future. We'll even let you in on sneak previews of our new releases.

You have the ideas which can help shape the future, and DATASOFT is ready to listen!
